

# WAR! What Is It All About?

HAS the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armor clashing, and men dying, just because Russia wanted to show her love for the little brother—Serbia? Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate, excuse the sacred lives of millions are being sacrificed. Read the history of the past one hundred years, as written by some of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give you

## FREE—"Europe at War"

A big book and over 300 pages, size 10 x 7 inches, handsomely and durably bound in cloth, containing the dramatic history of the great events leading up to the present time; over 50 important and timely special articles by experts on the different phases of the conflict; hundreds of graphic pictures, portraits, photographs, diagrams, specially drawn war maps, illuminating statistical records, copies of official documents and diplomatic messages exchanged between the powers—a clear, vivid, accurate, permanent, interesting and valuable record—a record which since seen you will not willingly be without. Europe's past and present are here dramatically pictured and presented. Hundreds of illustrations graphically tell their own stories. More fascinating than any romance, here is a history so vivid, so dramatic, so stirring, so fascinating, so realistic, so wonderfully presented, so thrillingly told that it leaves an ineffable impression.

### Your War News Clarified

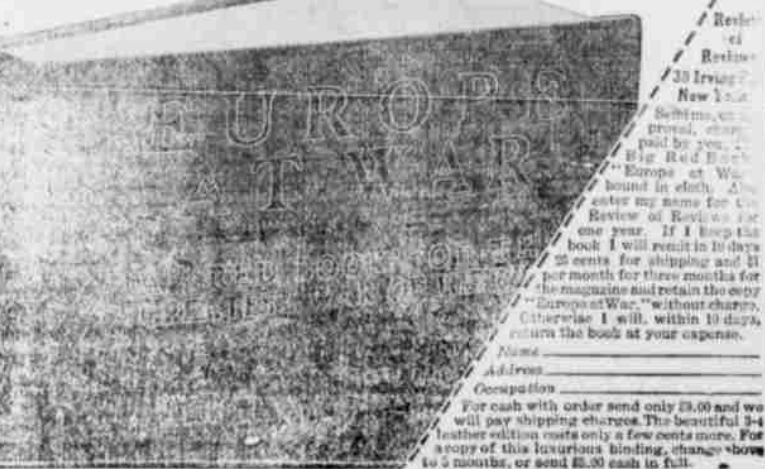

It is not enough to read the daily news reports. Your ability to comprehend conditions and to discuss them rationally depends on a true interpretation of the meaning and the "reason why" of events. In your mind you must bring order out of chaos and the "Review of Reviews" will do it for you.

## Get the Review of Reviews for a Year

Send no money. If the book isn't worth more than you pay for book and magazine together, send it back at our expense. But be prompt. The world-wide fame of this compendium will make these few volumes disappear from our stock room at once. Send your coupon today—and be in time.

## Highway Improvement

### CHICAGO-MIAMI MOTOR ROAD

Details of Work in Various Localities—Progress Made in Construction Is Remarkable.

That the Dixie highway is a road that has appealed to the people both North and South of the Mason and Dixon line is evidenced by a report from the offices of the Dixie highway association, located at Chattanooga, to the effect that fifty counties alone have spent more than \$1,765,290 on the Chicago-Miami motor thoroughfare in the last six months and are preparing to spend \$6,931,000 during the coming year, writes J. C. Burton in Chicago Daily News.

As the fifty counties reporting to the association represent less than a third of the total counties that are crossed by the road that lies North and South, it would not be unreasonable to estimate that approximately \$5,300,000 has been expended on the Dixie highway to date and that \$20,793,000 will be used to put the thoroughfare in shape in 1916.

When it is considered that the Dixie highway was routed only eight months ago, the progress made in its construction is remarkable. The large mileage of permanent roads built or under contract is an indication of the wonderful advancement made in such a short time. The fifty counties referred to report that nearly one-tenth of the distance either is paved or will be paved before another year rolls around. Using only a multiple of two to represent the other 112 counties, it can be seen that a good part of the road is or will be of a permanent type of construction.

The preparations being made for even greater progress along this line are highly gratifying to the officials of the Dixie highway association. Several divisions of the thoroughfare are planning paved roads for their entire stretch, the most notable of these being the links from Chicago to Danville, Ill., from Toledo to Cincinnati, O.; from Jacksonville to Miami, Fla., and from Tallahassee to Bartow, Fla.

The reports by states show that in seven out of the eighteen counties of Kentucky there has been expended \$135,000. In Ohio, eight counties out of twelve and exclusive of Hamilton county, of which Cincinnati is the county seat, have spent \$338,000. Five counties out of twenty-two in Florida spent \$601,000 on the Dixie highway.

Typical Concrete Bridge on Dixie Highway in Tennessee.

In the past six months, Four counties out of five in Illinois, not including Cook county, report a total of \$252,000 for road improvement. Ten counties out of twenty-four in Georgia spent \$95,000.

In the fifty counties reporting to the association provisions have been made for spending \$6,931,000 on the Dixie highway in 1916. This amount is divided by states as follows:

Florida	\$2,505,000
Illinois	1,250,000
Ohio	1,204,000
Tennessee	924,000
Kentucky	765,000
Georgia	151,000
Indiana	126,000

### CARE FOR SCHOOL CHILDREN

Compelling Helpless Child to Force Its Way Along Mud-Fouled Highway Is a Crime.

All good roads lead to a schoolhouse. In good roads there is a consideration of the school child. Compel a helpless child to force its way along a mud-fouled thoroughfare and a crime is committed. Its health is endangered and its mind is dwarfed. He who would not strive to overcome a calamity it not civilized though garbed in the broadcloth of an honored citizen. A community should, above all, consider the school children's welfare. The destiny of a nation rests in this careful study and the thoroughfare along which their little feet must travel cannot be constructed with too much precision to gain the happy result. Texas can never become great until she becomes civilized.—Delta (Tex.) Courier.

**Raise More Turkeys.**  
If turkeys are let roam over the fields they will get three-fourths of their growth on weeds and insects that would otherwise damage the growing crops. They will need very little attention until after cold weather destroys the insects. Then feed some corn to fatten them for market.

**Arouses Farmer's Interest.**  
One result of nearly every farmer owning an automobile is that he picks up his ears when good roads are mentioned.

### Those Bad Spells.

Labanon, Ky.—Mrs. Minnie Kumb, of this place, says: "I believe I would have been dead by now, had it not been for Cardui. I haven't had one of those bad spells since I commenced to use this medicine." Cardui is a specific medicine for the ills from which women suffer. Made from harmless vegetable ingredients Cardui is a safe, reliable remedy, and has been successfully used by weak and ailing women for more than fifty years. Thousands of women have been helped back to health and happiness by its use. Why not profit by their experience? A trial will convince you that Cardui is just what you need.—Advertise in it.

## POULTRY FACTS

### GOOD RATION FOR FATTENING

Improvement in Quality of Fowls May Be Had by Using Little Time—Confinement in Pen.

Just a little time spent in fattening birds will greatly improve their quality. The following ration has been recommended by the poultry husbandman of the Nebraska college of agriculture as being most economical for that state, and giving satisfactory results in fattening chickens: Sixty per cent cornmeal, 40 per cent low-grade flour, 20 per cent wheat middlings. Mix and skim milk to the consistency of a batter, and feed morning and night. Starve the birds for twelve hours previous to their first feeding. This will sharpen their appetites. Fatten for two weeks in a small pen or crate, until ready for killing. This will deprive the fowls of exercise, and the muscles will become soft. Fatty tissue will be taken on between the muscle fibers, which will greatly aid in the cooking process. Don't kill the bird when the crop is full. Starve for 24 hours and provide all the water they will drink. If the chicken is to be roasted, remove the crop either with the viscera or by making an incision next to the spinal column, where it will not show when the bird is severed. The cords or tendons of the thigh may be easily removed by partly severing the shank at the hock joint. Then, after locating the cords by making a lengthwise incision in the scaly portion of the leg, fasten the leg securely and pull steadily until the cords tear loose.

**VENTILATION FOR HENHOUSE**  
Six-Inch Board, With Three-Inch Strips, May Be Used for Incoming or Outgoing Current.

Take a six-inch board, nail a three-inch strip on either side and box up one end. Make a four-inch hole in siding, near the roof, place boxed end of trough over the hole on the inside of building with bent end down and fasten by toenailing or with cleats. This is for incoming fresh air. Take a piece of galvanized iron six inches in

Henhouse Ventilator.

diameter and screw on the outside of henhouse over one edge of hole. Use the ventilator regulator according to outside temperature and direction of wind. To provide for the release of impure air use the same device, but reverse the application, making holes in the bottom of siding with boxed end of trough down and bent end up. This will ventilate without draft.

### CHOOSING GRAINS FOR MASH

Best to Have Them Ground About Same Fineness—Hens Pick Out Larger Pieces of Corn.

In choosing grains for a dry mash, it is better to have them ground about the same fineness. Hens are greedy creatures; they are inclined to pick out the big pieces of corn and wheat, and leave the finer bits till the last. A gentleman who made his mash by the hit-and-miss system of mixing cracked grains, ground grains and flour together, found that when the birds reached the last of the mash in the hopper, they got too much cottonseed meal—one of the ingredients of his mash which he did not recommend—in the finer portion, and he lost several birds from acute indigestion.

**Produce Vigorous Chicks.**  
In mating, remember vigor, vitality, health. Any bird may produce, but it is the mating of strong, vigorous birds that produce the vigorous chicks, the only kind that pay.

**Origin of Pekin Duck.**  
The Pekin duck is of Chinese origin. Like the Aylesbury, it has a white plumage, and the legs are set far back, giving it an upright carriage.

**Fowls Cannot Smell.**  
Fowls do not possess the sense of smell; they have nostrils but not noses. It is up to the keeper to detect a foul or unhealthful odor.

**Charcoal Helps Poultry.**  
Feed plenty of charcoal, as it is one of the best things for keeping the poultry healthy.

**Clean Feed and Water.**  
Clean feed and water are necessary for the chickens.
